Finansinspektionen (Swedish FSA) is responsible for supervising the AIF-manager Nordkinn Asset Management in relation to this Key Information Document. This PRIIP product is authorised in Sweden and managed by Nordkinn Asset Management. Nordkinn Asset Management is authorised in Sweden and regulated by Finansinspektionen.

This Key Information Document was created 2025.06.30

### WHAT IS THIS PRODUCT?

**Type:** This product is an Alternative Investment Fund (AIF), also called *special fund*, in accordance to the Law (2013:561) for managers of AIFs (below the "Fund").

**Term:** The term of the Fund is unlimited. Nordkinn Asset Management has the right to discontinue the Fund and return all Fund units to the unitholders, please refer to details in the Offering Memorandum.

**Objectives:** The Fund is an actively managed fund that aims to create positive absolute returns that exhibit low correlation to equity and bond markets. The Fund invests in Nordkinn Fixed Income Macro Master Fund (the "Master fund"), which also is managed by Nordkinn Asset Management. Other than cash holdings, the intention is to be fully invested in the Master fund (never less than 85% at all times). The Fund promotes environmental and/or social characteristics pursuant to Article 8 of the Sustainable Finance Disclosure Regulation (SFDR). The Fund follows the Fund Company's sustainability policy which is to be found at [Reports and Policies | Nordkinn](#).

The management focuses on the Nordic capital markets but also invests across other OECD markets. Emphasis is placed on the fixed income and currency markets, where investments are primarily made in fixed income securities, currencies, and various types of derivative instruments. Exposure to the fixed income markets will at no time be less than 50 percent of the fund's value. The Master fund has less investment restrictions than a mutual fund, such as the ability to use leverage, short positions and derivatives to a larger extent. This enables the Master fund to exploit desirable risks, to neutralise undesirable risks, and combine long positions (positions that appreciate in value when the price moves up and depreciate in value when the price moves down) and short positions (positions that appreciates when the price moves down and depreciates when the price moves up).

**Distribution Policy:** The Fund pay dividend on an annual basis.

**Benchmark:** The Fund does not have a benchmark. The Fund's return is based on how its investments increase or decrease in value.

**Subscription and redemption** of fund units are made by notice to the Manager or agent, four banking days prior to the last banking day of each month.

**Intended investor:** The Fund is in particular suitable for institutional and private investors with larger investable amount having an investment horizon of at least 3 years, who understand that the capital invested in the Fund may both increase and decrease in value, and that there is no guarantee that the entire invested amount can be recovered.

**Depositary:** Skandinaviska Enskilda Banken AB.

Annual Report, Half-year Report, Offering Memorandum, latest NAV as well as other information is available free of charge at [Nordkinn Asset Management | Nordkinn](#).

## WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

The risk indicator assumes you keep the product for 3 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets. We have classified this product as 3 out of 7, which is a medium-low risk class. It means that the Fund has somewhat lower than median risk for increase or decrease in the NAV. The indicator reflects in particular increase and decrease of the instruments in which the Fund invests.

The following risks are not considered in the summary risk indicator: Counterparty risk: A counterparty does not fulfil its obligations vis-à-vis the Fund, such as not paying a defined sum. Operational risk: For example, loss due to system breakdowns or faults caused by human error. Credit risk: Issuer of debt instruments cannot pay interest or nominal value in time. Liquidity risk: An instrument cannot be traded at intended time without a major price impact. While underlying assets in the Fund by their nature are to be regarded as liquid, low liquidity may arise at extreme market conditions. Derivates risk: Large price change in derivatives may arise even at small price change in the underlying assets of the derivative. How we managed risks is described in the Fund's Offering Memorandum. This product does not contain protection against future market results. You can therefore lose all or part of your investment.

**Performance scenarios:** The figures include all costs for the actual product, but potentially not all the costs that you pay to your financial advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will receive from this product depends on future markets. Developments of future markets are uncertain and cannot be forecasted with certainty. In the table below, the scenarios "unfavourable", "moderate" and "favourable" show the worst, average, and the best result for the product during the last 10 years (live data is available for the period 2018 01 to 2025 05 and for the period 2015 05 to 2017 12 calculation is made with benchmark data). Markets may develop completely different in the future.

The stress scenario in the table, shows the theoretical result under assumption of extreme market conditions. Unfavourable: This scenario occurred for an investment in the Fund between July 2019 and June 2022. Moderate: This scenario occurred for an investment in the Fund between June 2016 and May 2019. Favourable: This scenario occurred for an investment in the Fund between June 2022 and May 2025.

**Recommended holding period: 3 years**

**Example investment: SEK 100 000**

Scenarios		If you exit after 1 year	If you exit after 3 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs.	74 800	76 000
	Average return each year	-25,2%	-8,7%
Unfavourable	What you might get back after costs.	86 800	92 700
	Average return each year	-13,2%	-2,5%
Moderate	What you might get back after costs.	102 700	105 400
	Average return each year	2,7%	1,8%
Favourable	What you might get back after costs.	113 700	123 600
	Average return each year	13,7%	7,3%

## WHAT HAPPENS IF NORDKINN ASSET MANAGEMENT IS UNABLE TO PAY OUT?

According to the law, the fund's assets may not be held by the fund company. Instead, each fund must have a designated custodian institution responsible for the safekeeping of the fund's assets. In the event that the fund company goes bankrupt, the management of the fund is taken over by the custodian institution. There is no other compensation or guarantee scheme for investors in the fund.

## WHAT ARE THE COSTS?

The person advising or selling this product to you may charge you other costs. If so, this person will provide you with information about those costs and how they might effect your investment.

**Costs over time:** The tables show the different types of costs that are deducted from your investment to cover different types of costs. The size of the amounts depends on how much you invest, how long you invest and how the product performs. The amounts are based on one example of invested amount across different investment horizons.

**We have assumed the following:** The first year you get back the amount you invest (i.e. 0 % annual return). At the 3 year investment horizon, we have assumed that the product performs in line with the "neutral" scenario. SEK 100 000 is invested.

Scenarios	If you exit after 1 yr	If you exit after 3 yrs
Total costs	SEK 2 340	SEK 7 420
Annual cost impact*	2,34%	2,42%

(\*) This illustrates how costs decreases your return each year during the holding period. It shows for example that if you redeem at the recommended minimum holding period, your average return is calculated to be 4,11% p.a. before and 1,70% p.a. after costs.

As remuneration for her/his services, the person that may be selling this product to you may receive part of the costs that you pay to us. You will get information about that amount.

#### Composition of costs

Amounts are in SEK and based on an investment of SEK 100 000		
One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	The impact of costs when entering the Fund	0 SEK
Exit costs	The impact of costs when exiting the Fund	0 SEK
Ongoing costs taken per year		
Management fees and other administrative or ongoing costs	1,00% of the value of your investment per year.	1 000 SEK
Transactions costs	0,99% of the value of your investment per year. These consist of SEK 140 (0.14%) in direct transaction costs incurred when we buy and sell units in the Master Fund, while SEK 850 (0.85%) are indirect costs, which are a theoretically calculated cost when we buy and sell underlying investments for the Master Fund. The actual amount will vary depending on how much we buy and sell.	990 SEK
Incidental costs taken under specific conditions		
Performance fees	0,35%. Calculation: 20% of the Fund's performance above hurdle rate, for details please see Offering Memorandum. The actual amount will vary depending on the result of your investment. The amount in this table correspond to the average the past five years.	350 SEK

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

### Recommended holding period: 3 years

The fund has no minimum holding period requirement, but based on the fund's investment strategy, it is suitable for a medium- to long-term investment horizon. You should be prepared to stay invested in the Fund for at least 3 years. You have the possibility to sell your fund units each month-end without extra costs.

## HOW CAN I COMPLAIN?

If you wish to complain you are encouraged to contact the person who gave you advice or who sold you the product. You can also contact Nordkinn here [Complaints | Nordkinn](#) or write directly to our Investor Ombudsman at [Investor Ombudsman | Nordkinn](#) or Nordkinn Asset Management, Hamngatan 11, 111 47 Stockholm.
